

Solar Bonding Lugs

ADELS® is a leading China Solar Bonding Lugs manufacturers.

- Conductor range: 2.5-10mm².
- Material: Copper Alloy.
- Common hardware used for attaching the lug and securing the conductor to simplify installation.
- Provided with all hardware Shown.
- Stainless steel hardware includes serrated washers for superior bond to anodized aluminum.

- Lay-in feature is ideal for installation underneath module frames.

As a professional high quality Solar Bonding Lugs manufacturers, you can rest assured to buy Solar Bonding Lugs from ADELS® and we will offer you the best after-sale service and timely delivery.

Solar Bonding Lugs

Solar Bonding Lugs Application

SBL solar bonding lugs are designed to bond the frames and mounting structures of solar photovoltaic systems in accordance with NEC@ requirements. The lugs are corrosion-resistant and galvanic alloy compatible with copper grounding conductors and aluminum photovoltaic module frames.

- ◆Conductor range: 2.5-10mm².
- ◆Material: Copper Alloy.
- ◆Common hardware used for attaching the lug and securing the conductor to simplify installation.
- ◆Provided with all hardware Shown.
- ◆Stainless steel hardware includes serrated washers for superior bond to anodized aluminum.
- ◆Lay-in feature is ideal for installation underneath module frames.
